For all users:

1. Set the configuration value `navadduserpostslinks`
  2. You can either update the value of this in the database ( `mdl_config` ) from `1` to `0` OR you can add an entry in `config.php` where you set `$CFG->navadduserpostslinks = 0;` . Alternatively you can use the [Site Configuration CLI tool](#)
  3. Clear you moodle cache
